Vision Mapping Template

Title: *Your Life. Your Calling. Mapped with Clarity.*
Format: Downloadable PDF (2–3 pages – printable or digital fillable)

Introduction

Most people don't lack ambition—they lack clarity. This **Vision Mapping Template** helps you organize your purpose, passions, and goals into a clear, visual plan.

Use it to define your direction, align your actions with your calling, and ignite momentum toward your future.

"Without vision, we drift. With vision, we build."
— Alfred Esene

Step 1: Define Your "WHY"

What drives you? What fuels your desire to grow, lead, or serve?
Write a few sentences about your *core motivation* or your *calling.*

Example:

"I want to help young people believe in themselves and unlock their potential because I know what it feels like to be lost without guidance."

Step 2: Your 4 Vision Domains

Divide your vision into these 4 life-impacting areas. For each, write:

- Where you are now

- Where you want to be

- 1–2 ideas or dreams

1. Personal Life
(Current → Future → Dreams)

2. Relationships & Community
(Current → Future → Dreams)

3. Career / Business / Ministry
(Current → Future → Dreams)

4. Faith & Inner Growth
(Current → Future → Dreams)

Step 3: Vision in Action (Goal Starters)

Write 1 goal for each domain that reflects your vision:

- Personal Goal: _____
- Relationship Goal: _____
- Career or Ministry Goal: _____
- Faith/Spiritual Goal: _____

Step 4: Obstacles & Mindset Reset

List the top 3 things holding you back:

1. _____
2. _____
3. _____

Now reframe each one into a truth or action:

1. _____
2. _____
3. _____

Step 5: Your Vision Statement

Use this simple formula to write a powerful, personal vision:

"I am becoming a [who you are becoming] who [what you do] so that [why it matters]."

Example:

"I am becoming a confident, faith-filled leader who empowers others to find their voice, so they can build lives of purpose."

Closing Encouragement

"Vision gives you focus. Focus gives you movement. Movement gives you results."
— Alfred Esene

This is your roadmap. Keep it visible. Review it monthly. Add to it as you grow.
